

*Let's help
together and remember
why we do this work.*

Thank you, FOR YOUR APPRECIATION.

To remember that the independence of Finland is not self-evident.

To remember the high price of our independence; all who fell or were wounded, widowed or orphaned in the wars, the broken families and those who lost their home.

And to understand the worth of post-war reconstruction, enjoyed by all of us, generation after generation.

And to never again experience a war that threatens our independence, democracy and all the values of our free country.

And to pledge to love, build and defend Finland together, passing it on in good condition to future generations.

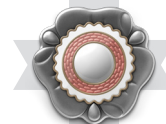

We have

PROMISED TO HELP
OUR WAR VETERANS AND
THE WOMEN OF OUR WARS
TO THE LAST MAN AND WOMAN.
THANK YOU FOR DOING
YOUR PART.

Some 8 500 war veterans,
spouses and widows still remain with us.
They have low incomes,
and additional support is needed.
For example, many war veterans' widows
live on a minimum pension,
which is less than €1,000 a month.
It seems unfair for our elderly heroes and
heroines to be burdened with rising care
costs and the higher prices of medicines,
food and health care services.
